World Informatix Cyber Security (WICS), a US-based cybersecurity company, has earned the trust and reputation of global clients including governments, multinational agencies, and large corporate entities. Founded in 2014, WICS USA and its technical delivery center in India provide a comprehensive set of solutions to clients across 5 continents.

WICS merges strong cybersecurity qualifications and expertise with a global perspective to help our clients protect against emerging threats and respond to cyber-attacks. Marquee clients such as the Central Banks, the United Nations, IFI's and Fortune 500 companies have entrusted WICS with the provisioning of key cybersecurity services including strategic consulting, advanced security testing, comprehensive security framework assessments, incident response and security operation center (SOC).

WICS is led by a diverse team of executives with decades of experience in IT, cyber, finance & executive strategy for global institutions. Our founder and CEO Mr. Rakesh Asthana imparts decades of experience from his tenure as Director of IT and deputy CIO at the World Bank.

WICS teams of consultants and cybersecurity engineers deployed for assignment are certified with industry leading certifications such as PMP, CISSP, CEH, SWIFT and more. With an extensive roster of industry partnerships and reseller agreements, WICS promises to deliver top-tier cyber security services, products, and solutions at an affordable rate.
